Expertise

WHY CHOOSE US?

- Proven track record across diverse infrastructure projects
- High accuracy through advanced equipment and modern methodologies
- Integrated service offering under one roof
- Consistent and timely project delivery
- Strong technical expertise across all service areas
- Client-focused approach ensuring reliable support and coordination

VELCITI CONSULTING ENGINEERS (P) LTD

Accurate Groundwork for Every Project

ABOUT US

Velciti Consulting Engineers Pvt. Ltd., formerly VEL Engineering Pvt. Ltd., was established in 2010 by experienced professionals in infrastructure and engineering consultancy. With over 30 years of combined expertise, we have successfully contributed to 1000+ projects across highways, railways, and urban infrastructure.

We are committed to delivering reliable, high-quality engineering solutions that support efficient project planning, design, and execution across diverse infrastructure sectors.

RANGE OF SERVICES

- Geotechnical Engineering & Soil Investigation
- Geophysical Surveys & Subsurface Analysis
- Topographic & Digital Survey Services
- Hydrology & Water Resource Studies

CORE SERVICE – SURVEY & GIS

We utilize advanced surveying equipment to deliver a comprehensive range of survey and investigation services. Our team performs high-precision leveling, positioning, and setting-out surveys to support geotechnical investigations, design development, and construction activities, along with standalone services for design and planning teams.

Services Include:

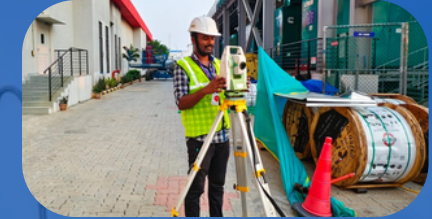

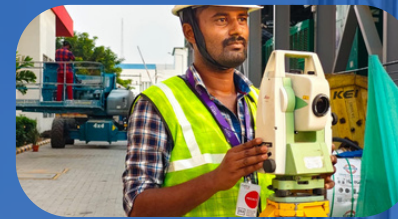

- Topographical Survey
- Contour Survey
- Traffic Survey
- Hydrology Survey
- Bathymetric Survey
- Storm Water Drain Survey
- River Morphology Study
